

GREAT QUANTITY OF BOOZE WAS SOLD

By Wathen and Knebelkamp, Evidence Shows, and They Are Held To Grand Jury

Louisville, Ky., Jan. 28.—R. E. Wathen, distiller, and W. F. Knebelkamp, manager for the Wathen company, were held to the federal grand jury yesterday after a hearing before United States Commissioner Joseph A. Craft. They are held on charges of violating the prohibition laws and prohibition enforcement laws, failure to place revenue stamps on the whisky sold and defrauding the government of revenue tax. Sixteen witnesses were introduced by the government in the examining trial of Wathen, at the conclusion of which Judge Craft overruled the motion of the defense asking for dismissal.

According to the testimony introduced by the government, which was uncontroverted by the defense, who placed no witnesses on the stand and asked few questions in cross-examination, 8,159 cases of whisky were transferred on January 2 from the R. E. Wathen distillery, owned by R. E. Wathen & Company, former whisky dealers. It was shown that R. E. Wathen & Company were not licensed to deal in whisky at the time the transfer was made and that Wathen is the president and Knebelkamp the manager of the company.

Various sales of whisky from the transferred stock, on which taxes had been paid for "medicinal purposes" to the amount of \$53,742.48, were proven by former saloon keepers who purchased and sold it for beverage purposes. No revenue stamps were on the bottles and cases sold, according to the evidence.

Stories were told by witnesses of how the whisky was loaded on trucks at night by the aid of a flashlight carried by a mysterious man at the Wathen warehouse whose face could be seen clearly; of payments to truckmen made in the dark; of orders "to follow a truck with an Ohio license which led the way to Covington; overturned trucks, broken bottles and of the location of places to which the whisky found its way in Louisville, Covington and Cincinnati.

One contention of the government, represented by W. V. Gregory, United States district attorney, his assistant, S. M. Russell, and Elwood Hamilton, internal revenue collector for Kentucky, was that the collector's office was defrauded of \$102,599.28 revenue tax, by failure of the defendants to pay \$6.40 on each gallon as tax for beverage purposes, instead of \$2.20 a gallon for "medicinal purposes," which they did pay. According to the government's figures, when it took charge of the Wathen warehouse, 4,752 cases of whisky had been sold from the 8,159 alleged to have been transferred by Wathen and Knebelkamp leaving 3,408 cases on hand. The whisky sold at \$120 a case, it was claimed.

In moving the court for a dismissal in the case of Wathen, counsel for the defense was not in harmony on one of the statements made to support the motion. Judge Fulton, of Bardstown, associated with J. P. Edwards, for the defense, asked dismissal on the ground "that no evidence had been introduced connecting Wathen with any of the sales."

"There is evidence that the R. E. Wathen Company made sales," Fulton told the court, but was interrupted by Mr. Edwards with "No, there isn't." "Well the Wathen Company sold it, or Knebelkamp, but not Wathen," continued Judge Fulton.

The defense, of the accused to the charge of defrauding the government of tax was revealed by the contention of Judge Fulton that since the establishment of war time prohibition it has been illegal for whisky owners to pay any tax for withdrawing whisky except that for medicinal purposes.

"This tax was paid," he said, "and it was all we were allowed to pay. Mr. Hamilton has doubtless had the beverage shaken in his face, but could not receive it legally. We maintain that there was no intent to defraud the government of a penny."

"Do you hold that war time prohibition repealed the right of the collector to collect government taxes?" asked Mr. Hamilton.

Weather For Kentucky

Fair and colder tonight; Thursday fair and warmer in south portion.

CONFERENCE TO TALK BIG BOND ISSUE

Governor Wants Discussion By Prominent Men From All Over the State

(By Associated Press) Frankfort, Ky., Jan. 28.—Gov. Morrow today announced he would at an early date call a conference of representative persons from each congressional district to canvass the proposed state bond issue of \$75,000,000, or possibly \$100,000,000. The conference will be held in Louisville and be composed of about 15 prominent persons, democrats and republicans, alike.

URGES BIG LOAN FOR STARVING NATIONS

(By Associated Press) Washington, Jan. 28.—President Wilson has asked Secretary Glass again to appeal to congress to loan \$150,000,000 to Poland, Austria and Armenia to relieve their desperate food situation. The President wrote "it is unthinkable the United States should withhold credit to these stricken people making available to them a small portion of our food surplus."

MINERS TELL OF VAST PROFITS OUT OF COAL

(By Associated Press) Washington, Jan. 28.—The miners' representatives completed presentation of the wage and coal mining cost statistics to the President's commission to settle the coal strike today. Regardless of all increases the miners' statistician asserted, the miners were receiving fewer cents out of every dollar paid to the operators than they got in 1913 and 1914.

The miners' statistician's figures showed that the Pittsburgh Coal Company made a net profit of \$3,000,000 in 1914 and 1915, and \$21,000,000 in 1917 and 1918. The net profit in 1917, he said, was \$690 for each employee. Other figures also purported to show the Lehigh Valley Coal Company made \$500,000 in 1914 and nearly \$4,000,000 in 1918 net profits. Three hundred mines, he said, in 1917 made 15 per cent on their capital stock, 200 made 40 per cent. A hundred and five made 100 per cent and eight over 1,000 per cent.

Ferdie Schupp In Bad

(By Associated Press) Louisville, Jan. 28.—It was announced today that Ferdinand Schupp, nationally known baseball pitcher, now with the St. Louis Cardinals, formerly with the New York Giants, has been indicted here on a charge of child desertion. It is a felony in Kentucky.

Gambling Probe On

(By Associated Press) Louisville, Jan. 28.—City and county officials were called on today to tell the grand jury what they know about gambling in Louisville. Five policemen and deputy sheriffs were summoned.

Flu Gains In New York

(By Associated Press) New York, Jan. 28.—Deaths from influenza and pneumonia increased 16 over yesterday. Nineteen hundred new cases of influenza and 266 cases of pneumonia are reported.

A. E. F. Historian Dead

(By Associated Press) Cambridge, Mass., Jan. 28.—Prof. Robert Johnston, chief historian of the American Expeditionary Forces, died at his home here today after an illness aggravated by two years in France.

No Change In Situation

(By Associated Press) Washington, Jan. 28.—There is practically no change in the influenza situation over the country. The new cases show a slow and gradual increase, reports to the Public Health.

"I maintain that the whisky tax was suspended for the duration of the war," was the reply.

NO FREE TEXT BOOKS FOR POOR CHILDREN

House Kills Bill and Anti-Hand Book Bill—Counties Must Advise Financial Condition

Frankfort, Ky., Jan. 28.—Rallying behind Representative Harry Meyers, of Covington, a democratic member of the House Rule Committee, the republican majority in the House, by a vote of 41 to 39, killed the anti-hand-book bill of Representative John T. Murphy, of Covington. This bill provided not more than 12 months jail sentence for taking bets or races away from a race track.

Murphy's luck broke better later on and he had the honor of passing the first bill in the House permitting circuit judges to sign transcripts and enter other orders for appeals of cases, the trials of which were presided over by their predecessors.

The Board of Charities and Corrections bill, and bills requiring state license for operating cloak and hat checkrooms in hotels and restaurants, and for foreign laundry agencies, providing for commission governments in fifth and sixth-class towns and for oiling their streets, were given their first readings.

The anti-hand-book bill, a bill to furnish free text books to indigent children and a bill to reduce the Tax Commission's appropriation from \$50,000 to \$25,000 were refused a reading and killed.

The House committee on Kentucky Statutes made an unfavorable report on the Bright bill which passed the Senate, making it optional with a Fiscal Court whether the sheriff's settlement should be published in full or as synopsis.

The bill was opposed before the committee by B. B. Cozine and M. O'Sullivan, of Shelbyville; W. V. Richardson and J. C. Alcock, of Danville; H. V. Bell of Lawrenceburg; T. W. Adams, of Ashland and D. M. Hutton, of Harrodsburg, members of the Kentucky Press Association. The newspapermen said they were not actuated by a desire for the advertising, because rates have gone above the statutory rate for such publications, but their experience has demonstrated a full statement of where county revenue comes from and goes. They argued that a synopsis or recapitulation lumping the amounts spent in various funds would be worthless for information throwing light on the management of public funds.

Declaring that no party or partisan can compel him to break his campaign pledge to vote to abolish useless offices Senator Brig H. Harris, of Ashland, Republican, voted today to adopt a resolution requesting Gov. Edwin Morrow to provide the list of 314 useless offices which he is reported to have said during his campaign he would abolish if elected. Senator Harris made this statement after Senators Hiram M. Brock, Robert Antle and White L. Moss, all Republicans had prevailed on Harris to change his vote. Senator P. Hogue, of McCreary county, Republican, asserted that whether or not Governor Morrow had made this statement, every other Republican speaker had. He voted not to table the resolution, but later changed his vote on request of Senators Antle, Moss and Brock.

Senator Burton suggested that Governor Morrow ought not to be held to a strict compliance with his campaign pledges. He caused laughter when he remarked that he himself had made campaign pledges which he could not carry out.

The Suffrage and Elections Committee of the Senate approved the bill of Senator Metzger to pay election officers \$5 a day and extend the time of voting to 6 o'clock p. m.

Representative Murphy led a losing fight today when the House rejected, 51 to 36, his resolution directing the State Auditor to refund to saloon keepers the unearned portion of their license for 1919.

"This is not a temperance question but an economic question," said Representative Wagoner, who favored adoption of the resolution.

While he believed that saloon men should have a square deal, Representative Neel said that he was of the opinion that 95 per cent of the saloon keepers had laid in large supplies of whisky before July 1 and "since that date had made more money than they ever had made in a five-year period."

Two bills killed in the House by unfavorable reports are: To fix the salary of the Secretary of State Tax Commission at \$2,400, allowing traveling expenses of commission and employees and limiting annual expenditures to \$25,000, and to provide free text books to children of indigent parents out of county funds.

STUDENTS POURING IN FOR NORMAL WORK

Enrollment Largest In Years For Spring Term—Boys Need Accommodations

The enrollment at the Normal school is back once more to the "before-the-war" number. Students began enrolling last Saturday and they are still coming. Word has been received that students from a number of counties are behind back water and will be unable to reach Richmond until the high waters subside. More than 150 students are enrolled this term than was enrolled at the corresponding time last year.

The increase in attendance of boys is very noticeable. All of dormitory rooms are filled and at least 100 men are rooming in private homes. Some have left Richmond because of their inability to secure rooms close to the school; some because they felt they were not able to pay the price asked in private homes.

The enrollment of girls is much larger than it has been for the past two years. Before the close of the matriculation period it is estimated that more students will be in Richmond for the present term than have ever been here before.

The cooperation of the town in caring for the students for the remainder of the year will be badly needed. The fourth term, which opens in April will bring a still larger number to Richmond. She must take care of them.

Farmers' Week At Lexington

Quite a number of Madison county farmers are attending Farmers' Week at State University, Lexington. More farm lands filled by owners, better education for farmers and their families and more co-operation among tillers of the soil were advocated Tuesday by Frank L. McVey, President of the University of Kentucky, when he formally opened the session.

Five hundred men and women were present at the opening of the convention. Matt S. Cohen, formerly State Commissioner of Agriculture, was the principal speaker at the annual meeting of the Kentucky Jack Stock Breeders' Association of the Kentucky Horse Breeders' Association.

E. A. Trowbridge, of the University of Missouri, urged that more attention be given to using draft horses in mule production.

Funeral of Mrs. Hilton

Funeral services of Mrs. Joe Hilton will be held at the home of her sister, Mrs. Alex King, on Glyndon avenue, Thursday afternoon at 2 o'clock. Friends of the family are invited.

BLACK ON THE JOB

Former Governor James D. Black, of Barbourville, was one of six men sworn in at Lexington Tuesday as prohibition inspectors for service under James H. Combs, of Lexington Federal Prohibition Director. The others are Elijah Hogge, Morehead; Henry M. Maher, Newport; Thomas B. Hannell, Greenville; Talbot Berry, Morganfield, and W. B. Stansfield, Mayfield.

United States Agents claim that the Louisville police are involved in the Wathen whisky frauds.

A NASTY COLD EASED AT ONCE

"Pape's Cold Compound" Then Breaks Up A Cold In A Few Hours

Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken, usually breaks up a severe cold and ends all gripe misery.

The very first dose opens your clogged-up nostrils, and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine—Insist upon Pape's! 28, Feb. 11, 25

employees and limiting annual expenditures to \$25,000, and to provide free text books to children of indigent parents out of county funds.

MODEL HIGHWAY NOW SEEMS ASSURED

Madison Arranges To Build Federal Road To Garrard Line—Farmers To Co-operate

Things look decidedly "good" for the Federal highway, which will come through Boyle and Garrard counties to the Madison line at Paint Lick and thence on to Richmond.

At an informal meeting of the Fiscal Court Saturday, it was decided that the county of Madison will pay a quarter of the cost of reconstructing Madison's part of the highway. Half of the rest will be paid by the federal government, and the other quarter will be raised by the farmers along the pike, whose property will be greatly benefited by the model roadway that will be built.

Already subscription papers have been drawn up by a number of prominent men of that section, and many have been heard to express themselves as decidedly favorable to the move. All realize what good roads mean and a highway of the type that must be built under federal supervision means the very best road that will be found anywhere in all this section. Its construction will make the Lancaster pike the show road of this section. Mr. Speed Taylor has one of the subscription papers and is meeting with much encouragement. The paper that the farmer along the route are signing reads as follows:

We, the undersigned, agree to pay the amounts opposite our names for the purpose of improving the 11.35 miles of the Richmond and Lancaster pike in Madison county, Ky., said portion being located between the city limits of Richmond, Ky., and the bridge at Paint Lick, Ky.

It is stipulated in the agreement to promote said improvement that the subscriptions hereto are given by the undersigned subscribers upon the condition that the National Government is to contribute one-half of the total cost of the work, the Madison County Fiscal Court one-fourth of the total cost of the work, and the remaining one fourth to be raised by private subscription and that the plans, survey and actual construction of the proposed improvement is to be carried out as the National Government or the Department of Public Roads may direct.

It is further understood and agreed that said subscriptions shall be due and payable upon demand of the Commissioner of Public Roads of Kentucky, as required in improvements receiving National aid.

Garrard county and Boyle county have already acted on the proposition, and favorably. The Lancaster Record says of the steps that were taken there at a meeting of the Garrard Fiscal Court:

The meeting lasted most of the day, most of the time being consumed as to whether an additional 20 cents tax should be voted at the time the vote is to be taken on the bond issue.

It was unanimously agreed that a bond issue should be put up to the vote of the people, but many doubted if the 20 cents additional tax was added, that it would meet with favor by a majority of the voters. After some discussion, the tax was agreed to be left off and a committee appointed by Judge Stapp to secure the necessary number of voters to a petition, asking for a vote on the bond issue and same will be presented to Judge Stapp County Court day, Monday, January 26.

The Department of Roads at Frankfort has estimated that the road will cost approximately \$18,000 a mile, it will be necessary to vote a bond of \$192,000 to cover the county's part of building the road which will run from King's Mill on the Danville and Lexington pike through Lancaster over the Richmond pike to Paint Lick, a distance of about 20 miles.

The meeting was an enthusiastic one and from the expression heard from those attending, it was unanimous that the Federal Highway proposition should be accepted, and that when properly put before the people of that county, it will be as unanimous as was the sentiment at the meeting yesterday.

The Danville Messenger said the

THE MARKETS

Cincinnati—Cattle quiet; hogs 50c lower; Chicago 20c lower. Louisville, Jan. 28.—Cattle 300; steady and unchanged; hogs 2,000 prospects about 75c lower; making tops approximately \$15.50; sheep 50; steady and unchanged.

JUGO-SLAVS ACCEPT WILSON'S PROPOSALS

(By Associated Press) Paris, Jan. 28.—Bulletin—The Jugo-Slav reply to the allied ultimatum regarding the Adriatic question, was received here today. It amounts to a virtual refusal of compromise offered by the Italians. The reply is said to suggest a new basis of compromise along lines of President Wilson's proposal.

HIGH COURT'S OPINION SETTLES BRIDGE CASE

The Courier-Journal's report of the decision of the Court of Appeals at Frankfort seems to definitely and finally settle the right of the Clay's Ferry Bridge Company to collect toll at the bridge over the Kentucky river on the Richmond and Lexington road. The C. J.'s dispatch from Frankfort said:

Frankfort, Ky., Jan. 27.—The Clay's Ferry Bridge Company, successor to the old Richmond & Lexington Turnpike Company, may continue to charge tolls on the bridge across the river forming the county line between Madison and Fayette, the Court of Appeals held today, in an opinion by Judge Settle, dissolving an injunction granted to Madison and Fayette counties. Under the act of 1898, providing for the purchase of turnpikes by the counties, Madison and Fayette bought the pike, leaving the bridge in the company's hands. It sold the bridge in 1907 to Thomas J. Smith, W. S. Moberly and James Briskine, who organized the Clays Ferry Bridge Company.

The counties contend that under the act of 1898 the bridge company could not assume its franchise. The Court of Appeals holds that it could.

WEED CONTINUES TO ROLL IN TO MARKET

The sale of tobacco was resumed on the Richmond market this morning, after a short let-up. Weed continues to pour in. Many have thought that the major portion of the tobacco in this section is now in but it seems there is quite a quantity out yet. Prices are still holding up well and the growers are all pleased. A few of the sales noted since last reported were:

Virgie Cox sold the following baskets: 95 lbs at 76c; 70 lbs at 92c; 150 lbs at 97c; 85 lbs at 99c; 125 lbs at 75c; 115 lbs at 31c; 45 lbs at 14-1-3c; 20 lbs at 12c.

Broadus and Whitaker sold the following baskets: 45 lbs at 70c; 250 lbs at 96c; 80 lbs at 98c; 340 lbs at 98c; 45 lbs at 98c; 265 lbs at 98c; 55 lbs at \$1.01; 310 lbs at 96c; 60 lbs at 91c; 300 lbs at 77c; 190 lbs at 58c; 280 lbs at 26c.

Ed Brown and son sold the following baskets: 105 lbs at 1-2c; 200 lbs at 16c; 245 lbs at 18c; 225 lbs at 36c; 215 lbs at 62c; 245 lbs at 73c; 295 lbs at 91c; 125 lbs at 88c; 320 lbs at 83c; 220 lbs at 75c; 330 lbs at 76c; 230 lbs at 61c.

Grover Warner sold the following baskets: 135 lbs at 87c; 225 lbs at 99c; 125 lbs at 97c; 105 lbs at \$1.03; 195 lbs at \$1; 105 lbs at 96c; 135 lbs at 75c; 255 lbs at 68c; 120 lbs at 63c; 65 lbs at 20c; 55 lbs at 22c; 10 lbs at 7c; 85 lbs at 20c.

Boyle Fiscal Court at a called meeting today voted to submit to the voters of the county the proposition of a 15 cents tax, on the hundred dollars worth of property for two years, the amount raised to be used in paying Boyle's share for the construction of the proposed Federal Highway running through Hart, Green, Taylor, Marion, Boyle, Garrard and Madison counties.

It is generally believed the tax will be voted as the people of the county want better roads and are very much interested in the National Highway. The election will be held on Saturday, February 28th.

HIGH WATER DID LOTS OF DAMAGE AT BEND

Reporter Says People There Want Better Roads And County Demonstrator Again

Bend, Jan. 28. Big, bigger, biggest. This is the most river we have had in a year. Witt and Richardson lost 400 hundred shocks of fodder, Dr. L. J. Berryman lost a lot of hay; Mr. M. B. Hill and sons lost all the fodder they had on the three farms and a lot of corn. They have 150 cattle to feed, too. There has been a tide continuously since October in the Kentucky river.

The sleet on the timber was so heavy, orchards and shade trees were badly damaged.

The road tax is gaining in the Bend. John Kaylor started to market with 200 lbs of tobacco on his wagon. The wagon skidded behind a tree. He neither could get forward nor back. He had to unload, the rain coming down heavy. Late in the night he got on the pike. He declares he is in favor of better roads.

We believe the citizens of this part of the county would be pleased to have a County Demonstrator. When Hon. Thos. H. Collins was Demonstrator, good work was accomplished not only in buying coal and fertilizers, but in growing crops, rotation, etc. There was a decided improvement. The farmers were taking an interest in scientific farming which is badly needed as the old time way of farming is passing away. The land is not producing like it did in former times. Therefore, it is necessary to grow more clover and legumes of different kinds to build up the fertility of the soil. We would like to hear from the Fiscal Court through the Daily Register why the county should not have another Demonstrator. We believe it would be of great benefit to the people to have another. At present there is a splendid showing for a rock crusher at this place. We have the rock which analyzes 97 per cent with ground limestone. Property used there is nothing that tends to build up the fertility of the soil better. Money is the cheapest thing we hear. Why is it that some man who has the capital don't try it once for luck?

For immediate sale, several loads of manure. L. R. Blanton, Phone 85.

HUNGARIANS VOTE FOR A MONARCHY

(By Associated Press) Budapest, Jan. 28.—It is estimated that the monarchistic vote cast in the elections Sunday and Monday is approximately 95 per cent of the total number of ballots. Speculation is said to be centered on who will be king. Guesses range from the Hapsburg princes to scions of ruling European houses and American millionaires.

For immediate sale, several loads of manure. L. R. Blanton, Phone 85.

HEARD ABOUT TOWN

The flu epidemic is on the wane in Chicago.

News comes from Washington that Senator J. C. W. Beckham, is being detained at his home by slight attack of influenza.

Mr. M. F. Wharton sold his residence on North Limestone, Lexington to Mr. T. J. Tooley.

Mr. Robert Bush has bought the farm from Squire Broughton he recently bought of Robert Elkin, near Waco, and moved with his family.

Mr. Willis Hise, of Madison oldest citizens, is ill at his home of the Big Hill pike, being a sufferer from stomach trouble and grip. Mr. Hise has passed his 86th milestone. His numerous friends hope to see him out soon.

More Inside Socialism

(By Associated Press) Albany, N. Y., Jan. 28.—Loss of money in support of the alleged Socialist party required candidates for public office to sign a blank resignation before election was given by Mayor Lunn, Schenectady, today at the trial of five suspended Socialist assemblymen before the assembly judiciary committee.

For immediate sale, several loads of manure. L. R. Blanton, Phone 85.

IN AUTO CIRCLES

It has always seemed to me that there is a good deal of sound philosophy in Benjamin Franklin's statement that we should beware of croakers. This advice is as sound today as it was a hundred years ago. All industry has been confronted with menacing conditions during the months, and years just past but I am optimistic enough to believe that every major development in our international growth, in our civic reforms and in our economic re-adjustments will lead us to bigger and better things for the future. Every one of us should be an optimist; there is no room for pessimism.

By referring to one of my charts, I notice that in 1905 there were 150,000 automobiles in the country; fifteen years later we have passed the seven million mark. Now I hear much about the "saturation point" and that other indefinite period when we shall have "diminishing returns." Automobiles come in the "consumption" class of commodities; i. e., they are used, worn out—and replaced as an essential part of life just as clothing is. I forecast that we shall be able to absorb not only the present automobile production but we shall even sustain the greater growth which ambitious manufacturers are meditating.

Hence it is a problem of production and every citizen, from the management to the worker at the bench, should do his share toward keeping an uninterrupted flow of raw materials and finished goods going through the mills, warehouses and stores of this country and every man has a right to share in the fruits thereof. In no other line of industry are the relations between capital and labor on a friendlier or sounder footing than in the automotive field, hence there should be no cause for apprehension.

So far as passenger vehicles are concerned we are now at the crest of a buying market. Production does not equal demand and personally I expect this condition to exist for some time to come. I recall being told at one of the New York shows way back in 1907 that the then annual production of 60,000 cars marked the peak point in automobile manufacture and that the number of cars to be made annually would lessen rather than increase. Just as that prophet of gloom was suffering from brain-storm so will I also classify those who today are refusing to advance with the times. The proposed car production for 1920 is 3,000,000 cars. An analysis of the market, at home and abroad, shows an ability to absorb even greater production, hence the possibility of a shortage of cars is imminent.

Rural Districts Disappearing
The average reader may say, "Well, this growth of the automobile industry is all very nice, but wherein does it affect me?" Anything re-

NEGLECTING THAT COLD OR COUGH?

Why, when Dr. King's New
Discovery so promptly
checks it

IT'S natural you don't want to be careless and let just old cold or cough drag on or that new attack develop seriously. Not when you can get such a proved successful remedy as Dr. King's New Discovery.

Cold, cough, gripe, croup does not resist this standard reliever very long. Its quality is as high today as it always has been—and it's been growing steadily in popularity for more than fifty years. 60c and \$1.20 a bottle at all druggists. Give it a trial.

Constipated? Here's Relief

Not that often harmful, always violent and temporary help that comes from harsh purgatives, but the comfortable, gratifying, corrective regulation of stubborn bowels so pronounced in Dr. King's New Life Pills.

Tonic in action, they promote free bile flow, stir up the lazy, thoroughly but gently cleanse the system of waste matter and fermenting foods, and give you keen zest for hard work and healthful recreation. All druggists—20c.

GOING AFTER "WHITE CANNIBALS" WITH GAS

(By Associated Press)

New York, Jan. 28—Mustard gas and machine guns are to be used by Captain Harry de Windt, an English explorer, against the poisoned arrows of a tribe described as "white cannibals" on Tiburon Island, on the Pacific coast, he announced here today. Captain de Windt said he would leave New York in a few days to lead an expedition of six civilians and three score Mexican soldiers to the island. Tiburon is said to have rich deposits of pitchblende from which radium is made.

The island is about 40 miles from Guaymas, Mexico, which, in turn, is only about 48 hours by rail from Coronado, Beach, Cal. The inhabitants are said to be descendants of Dutch, Swedish and German prisoners who escaped from Mexican prisons several centuries ago. Of sixteen persons known to have visited the island in the past few years, in parties of two and three, only nine are said to have returned alive, the others falling victims to the flaxen-haired, blue-eyed, "white Indians" as the Mexican peons call them.

"Four miles from the Mexican coast," said Mr. de Windt, "Tiburon is easily accessible. Yaqui Indians, who live on the mainland, call Tiburon the Island of Death for the reason that any person who lands on it is shot by poisoned darts and then eaten by the natives. The cannibals, in addition to bows and arrows, use ancient blunderbuss. They are supposed to number from 500 to 2,000 persons.

"Besides myself, the expedition I will lead will consist of Mackenzie Grieve, the companion of Harry Hawker when he fell during his attempted transatlantic flight; an expert radium mining engineer, an expert copper mining engineer; Anton Gibson, nephew of President Carranza, of Mexico, in whose name the concession permitting the exploration of the island was issued; a man servant and sixty Mexican soldiers, assigned to the party by the Mexican government. I imagine the searchings on the island will consume about three or four months."

The demand for farming land seems to be constantly increasing. They've begun to trade land, "sight unseen," like the boys used to swap knives. A Versailles real estate firm sold fifty acres of the Bramel farm to Charles Biddle, Wilmore, by telephone, for \$5,000. Mr. Biddle never having seen the place and roads being impassable from sleet.

Entered at the postoffice in Richmond as second class mail matter under Act of Congress of 1875.

Those "Useless Officers"

The Lexington Leader complains that the resolution passed by the state senate calling on Gov. Morrow for the names and titles of the "314 useless officers" which he talked so much about during the campaign and promised to abolish, is a "move to embarrass the governor." Just how we fail to see. Gov. Morrow promised on every stump in the state to use his copper toed boots on "useless office holders" when he was running for office. The legislature is the only power that can abolish the "useless offices" and if the governor wants them abolished, he should tell the legislature just what they are. The governor didn't hesitate to "embarrass" the previous democratic state administrations that he charged with creating these same "314 useless offices." It's altogether whose ox is gored. The Lexington Leader is a great newspaper in many ways, but it's so partisan that it can see no good in anything a democrat does.

GOOD HEALTH NECESSARY FOR SUCCESS

Conspicuous Success Requires
Invincible Energy, "Bulldog"
Tenacity, Vigorousness

Red-Blooded Men in Demand

Each Year Pepto-Mangan Re-
Stores Thousands To The
Red-Blooded Class

Modern business can't wait for the easily-exhausted, nervous, weak-bodied man or woman. Every executive is on the constant lookout for enthusiastic, vigorous, red-blooded individuals, for he knows that with a strong body and keen mind, such employees can easily stand the strain of heavy responsibilities, quickly master their work and develop into important positions.

After all, being "live," energetic, and full-blooded is just a matter of whether or not a man or woman believes a healthy physical condition worth while, for unless you are afflicted with some deep-seated ailment, the intelligent use of Gude's Pepto-Mangan is all that is usually necessary.

Gude's Pepto-Mangan soon produces marked beneficial results. The tired, worn-out run-down feeling disappears. And in its stead a vigorous, wholesome, and happiness proves that the blood has been supplied with the sorely needed richness to supply the entire system with renewed strength.

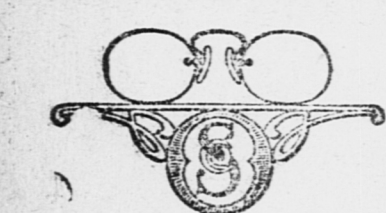

When you buy Pepto-Mangan at your druggist's, be sure the name "Gude's" is on the package. You can get it in either liquid or tablet form. If the name "Gude's" is not on the package it is not Pepto-Mangan. Adv.

Public - Auction

of Fine Clark County Land

As administrators under the will of the late W. D. Thompson, we will offer for sale at

Public Auction on the Premises

—ONN—

Friday, January 30, 1920

AT 10 O'CLOCK A. M.

the home farm of the late W. D. Thompson, containing 543 72-100 acres. This farm is in Clark county, and is located 6 miles from Mt. Sterling, about 10 miles from Winchester, and 3 miles from Thompson's Station on the Chesapeake and Ohio Railroad. It lies on both sides of the Wade's Mill and Sewell's Shop turnpike. This land has been subdivided into five different tracts, each of said tracts having a large frontage on the Wades Mill and Sewell's Shop turnpike and each tract makes a fine farm in itself.

TRACT NO. 1—Contains 106 421-1000 acres. This tract lies well, has a large frontage on the pike, affords a splendid building site, is mostly in blue grass, and has on it a large amount of fine tobacco and hemp land, and is well watered.

TRACT NO. 2—Contains 176 15-100 acres. It has a large pike frontage. Improvements consist of a nine room, two-story frame residence with two halls, large front and back porch, good cistern, smoke house, ice house, two buggy houses, stock barn, good orchard and other improvements. A portion of this land is in grass, and the balance is in a fine state of cultivation. This tract, with its improvements, makes a most desirable home.

TRACT NO. 3—Contains 86 42-100 acres. It has a large pike frontage, affords a splendid building site. A portion of this land is in blue grass.

TRACT NO. 4—Contains 94 537-1000 acres. Has a large pike frontage, lies well, and affords a splendid building site. A portion of this land is in blue grass, and the balance is in a high state of cultivation.

TRACT NO. 5—Contains 80192-1000 acres. It has a large pike frontage, and has on it a brick residence containing four rooms and kitchen, a stock barn and other outbuildings. It is practically all in blue grass and is watered by never-failing springs.

This land has been sub-divided with great care, so as to make each tract a very desirable farm.

For further information prospective purchasers are invited to call on the undersigned.

PERSONAL AND SOCIAL

Clef Club

Miss Marie Langford, secretary of the Clef Club was at her home in High street Monday afternoon the first division rendering the program. Miss Elizabeth Shearer, Georgia Smith, Elizabeth Renick and Marion Giunchigliani gave the piano numbers and little Gladys, Virginia and Hannah Dean of the piano club played a duet. A motion was made and carried that each member on the program, in case of absence pay a fine or furnish a substitute. This club is one of the most active, energetic and enthusiastic organizations among the seven of which Richmond boasts. The February meeting will be with Miss Georgia Smith.

Entertained at Dinner

Miss Irene Baker entertained with an informal dinner Sunday at her home on the Lancaster pike. Her guests included: Miss Reulah Tipton, Miss Stella Francis McKinney, Miss Lucie Mae Baker, and Messrs. Doe

Cotton, James R. McKinney, John D. Baker and Walter Lawson.

Duncan-Howard

Miss Sallie Duce and Mr. Luther Howard, both of this county were married at the office of the County Judge, in Jessamine county last week.

Mrs. Day Breck was a recent visitor of friends in Berea.

Mr. and Mrs. George Rogers spent the weekend with friends in Paint Lick.

Mrs. Nannie Epperson, of Ford, spent the week-end with Miss Anna Edwards.

Mrs. Abe Burton, of Garrard, spent the weekend with relatives in Madison county.

Mr. and Mrs. Edgar Rogers were dinner guests of Mr. and Mrs. Ernest Butner Sunday.

Mrs. W. E. Dickerson and son, have returned from a visit to Mrs. George Ray at Buckeye.

Miss Cora Hurst has returned to her home in Paint Lick, after a visit to Richmond friends.

Judge N. B. Turpin was called to Paris Tuesday by the death of his niece, Mrs. Joe Hilton.

Mr. Oakley Baber and Miss Massie Baber have returned from a visit to relatives in Clark county.

Miss Bettie McCann Perry is at home from Hamilton College to spend the term end with her parents.

Mr. and Mrs. W. P. Williams, of Irvine, were here Monday en route to a visit to friends in Frankfort.

Mrs. J. B. Harris and Mrs. Paul Griggs have returned from a visit to Miss Lelia Jane Harris at Berea.

Mr. and Mrs. Miley Beasley, of Garrard county, were guests of friends here Thursday and Friday.

Misses Laura and Camilla Blanton will leave next week to enter the second term at Georgetown Baptist College.

Mrs. Harvey Chenault, who left Tuesday for Fort Myers, Florida, stopped in Atlanta for a few days visit to her brother, Mr. E. D. Hume and Mrs. Hume.

Dr. Wilgus Bach and Mrs. Bach of Jackson were here last week with the latter's parents, Mr. and Mrs. John Duncan en route to Tampa, Fla., to spend the winter.

Mrs. James W. Smith left today for a visit to her daughter Mrs. Julian VanWinkle in Louisville.

Mrs. Walker Hisle and daughter, Miss Virginia, have returned from a visit to Mrs. H. C. Butler at L. & E. Junction.

Miss Jettie May Herrington, of Atlanta, who is so pleasantly remembered here, having spent the winter with her brother, Mr. L. B. Herrington and family a few years ago has arrived in Louisville for a several months stay and will probably visit Richmond friends before returning home.

BROOKS TOWN

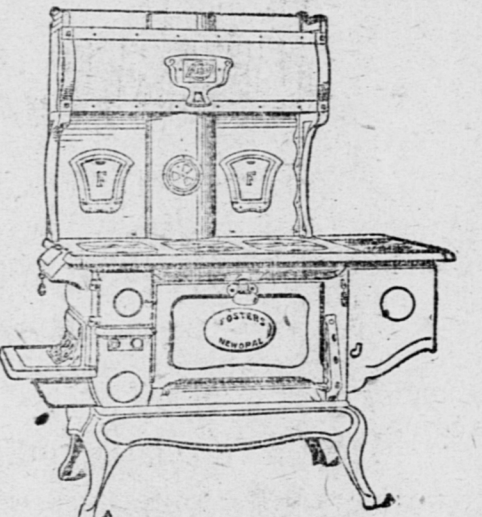

Mr. and Mrs. Charley Noland, of Blue Mound, Ill., who have been visiting relatives in Kentucky have returned to their home.

Mr. J. A. Turpin spent last week with his daughter, Mrs. B. J. Edwards of Corbin.

Mr. Robert Pigg is on the sick list. Miss Mary Black Johnson spent last Saturday night with Miss May Delta Reid.

Miss Amanda Parke is visiting Miss Mary Delta Reid.

Mr. and Mrs. Eugene Davis, of Red House, spent last Sunday with Mrs.

OF INTEREST TO WOMEN

This is a Short Letter, but it Brings a Message of Importance to every Woman.

Woodford, Vt.—"I took Lydia E. Pinkham's Vegetable Compound and Liver Pills before my child was born and it did wonderful work for me. My baby weighed eight and one-half pounds when born and I did not suffer many pains. You can publish this letter if you wish for I would not be without your medicine before child birth."

—Mrs. JOHN LEBURN, Woodford, Vt.

The reason why Lydia E. Pinkham's Vegetable Compound is so successful in overcoming woman's ills is because it contains the tonic, strengthening properties of good old fashioned roots and herbs, which act on the female organism. Women from all parts of the country are continually testifying to its strengthening, curative influence, and as it contains no narcotics or harmful drugs it is a safe medicine for women.

If you want special advice write Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read, and answered by women only.

E. Pigg.
Mr. and Mrs. Robert Turpin spent last Monday with Mr. and Mrs. Leslie Turpin.

PRESBYTERIAN DRIVE

Chattanooga, Tenn., Jan. 28—Definite dates for the every-member canvass of Presbyterian churches all over the south, in the \$4,000,000 progressive program of that denomination will be set at a meeting of the campaign committee to be held in Chattanooga January 29. The southern Presbyterian church has set the above named amount as its goal for one year.

Headquarters of the entire campaign are in this city, with Dr. William Fred Galbraith as executive secretary, and the Rev. S. Waters McGill as campaign manager. In addition to this, synodical headquarters have been opened in seventeen states, from Texas to Washington.

AGED CITIZEN DIES

After a protracted illness of 63 days, Fenton Jones aged 73 years, died at the home of his daughter Wednesday night from complication of diseases. Deceased had been a lifetime resident of Madison county, and loved and respected by a who knew him. He was six daughters, and two sons most of whom were with him when the end came, their devotion and ministrations to their aged parent, untiring to the end. Remains were interred in burial ground at Red House, services at the grave by the pastor of Christian church. Much sympathy is felt for the bereaved family.

Mr. J. A. Turpin has returned from a visit to his daughter, Mrs. B. J. Edwards in Corbin.

Miss Georgia Moss was with the home folks in Stanford for a weekend visit.

Signifies Intense Imagination.

In numerous types of handwriting the manner of throwing the looped ts, ls and other long letters to excess above the line become the most striking feature, one which catches the eye immediately. Whenever this formation appears it symbolizes the existence of a startling, vivid, intense imagination, which gives the writer a mental trend which will overbalance other qualities and produce the effect of high nervous tension and a lack of poise.

DOUGLAS FAIRBANKS

HEARD ABOUT TOWN

In Clark county, Miss Lena Bratton sold her farm containing 283 acres located near Wades Mill to W. C. Gaines and Thomas Reeves at \$250.00 per acre.

W. H. Hitt sold his 157-acre farm in Woodford county to S. A. Ferris at \$269 per acre. White Brothers bought the T. A. Bramell farm in Franklin county.

Many more fans will regret to learn of the death of Rev. Cyrus Townsend Brady. He was author of most of the thrilling serials that have been appearing at the Richmond theatres lately. He was an Episcopal clergyman, a graduate of the Naval Academy, and an army chaplain in the Spanish war. Dr. Brady had written scores of books dealing with adventures and battles on land and sea, most of the novels with an historical foundation.

Petitions are now being circulated, as required by law, calling upon County Judge Stapp, to call an election at the earliest possible moment for the purpose of voting a bond issue in the sum of \$192,000 which will pay \$18,000 per mile for the 21 miles of the proposed road that is to run thru Garrard county from King Mill to Paint Lick. It was decided to build the road of a rock asphalt and make it the best or as good as the best in the state.

LALLEY LIGHT and POWER

It is Costing You Money Not to Have a Lalley

It is an actual fact that any farmer is losing money by not having Lalley Electric Light and Power.

You lose money in the comfort and convenience which the Lalley would give you and your family.

You lose money in the time the Lalley would save in the farm work.

You lose money in the labor the Lalley would actually save. All these things are worth money; and if you do, not economize in them, you are the loser.

The Lalley is an economy. It DOES pay for itself by what it saves. It is an investment, not merely an expense.

Thousands of Lalley-Light owners know these things are true, and they have said so over and over again.

There can be no doubt now, after ten years of use, that the Lalley plant is right.

Neither can there be any doubt that it does its work with extraordinary efficiency and extraordinary economy.

Lalley-Light is a complete unit—engine and generator—with 16-cylinder storage battery. It supplies ample electricity for lights, water pump, washing machine, sweeper, cream separator, fencing mill, iron, etc.

ZARINGS' MILL

Free Yourself From The Pangs of Rheumatism

The Right Treatment Will Break Your Shackles.

You who are afflicted with Rheumatism know from experience just how excruciating the pangs of the disease are. You know also, if you have had rheumatism for any length of time that there is no real relief to be expected from the use of liniments and lotions. Rheumatism is a stubborn disease, and its pangs and pains cannot be wiped out as if by magic. A disease that is so full of torture and renders so many people absolutely helpless, is a deep-seated one; it is not on the surface, hence it cannot be reached by external, surface remedies. Lotions, liniments and ointments applied to the surface may in some cases deaden the pain for the time being, but until you attack the disease at its foundation, you are making no progress toward a cure. Many forms of Rheumatism are caused by millions of tiny germs that infest the blood, and until the blood is absolutely freed of these germs, there is no real relief in sight. In fact the longer you delay treating the disease through the

blood, the further you are getting from ridding yourself from the disease. And because so many people treat the pain, and not the disease itself, is one reason why Rheumatism increases in severity year by year.

The most satisfactory remedy for Rheumatism is S. S. S., because it is one of the most thorough blood purifiers known to medical science. This fine old remedy cleanses the blood of all impurities, and is a sure antidote to the germs of Rheumatism. Being purely vegetable, without a particle of mineral or chemical in its composition, it works by eliminating and forcing out of the blood all impurities, acting as a tonic to the entire system at the same time. It has been used for more than fifty years, and scores of sufferers from Rheumatism give it unstinted praise.

S. S. S. is sold by druggists everywhere, and any of them will tell you that it is a thoroughly honest and reliable old remedy. You are invited to write our medical department for full information and advice about the treatment of your own case, for which no charge is made. Address Chief Medical Adviser 12 Swift Laboratory, Atlanta, Ga.

TELLS OF ENGINEERS' WORK IN GERMANY

Brother Officer Writes From Coblenz To Richmond's City Engineer, Col. Crecelius

Col. C. F. Crecelius, city engineer for Richmond, has just received an interesting letter from a brother officer with whom he saw service during the war, that tells of the work that the American army of occupation in Germany is doing. The writer is stationed at Coblenz, Germany, and writes interestingly of conditions to Col. Crecelius. He says:

Audernach am Rhein.

My Dear Colonel:

It took your letter just a month to get here; and in order to keep in better touch with you, I am going to drop you a few lines now. It was a you a few lines right now. It was a real pleasure to hear from you; and I'm particularly glad that you agree with my choice. At the time, I had no misgivings at all, and now that I've been in the expedition for two months, I am forced to congratulate myself. My only regret is that the engineer company has gotten to be about the most useful, best known and absolutely indispensable unit in the brigade. We do everything from drill to painting signs and making clubs for the M. P's. Now have a flourishing company of 290 men, who have been picked from 350 that we had two weeks ago; and the only danger is we are getting too high-class an outfit. Have one buck private who was a battalion commander of Field Artillery in France. Croix de Guerre, wound stripes and all. Such as these we have farmed out on S. D., construction work—which I am handling for Colonel Fox.

We find German labor so plentiful, efficient and cheap that we seldom ever use the men of the company on fatigue work. Keep them drilling—to make good soldiers; and I have two excellent Master Engineers, two 1st Sergeants, a couple of corporals—who supervise a gang of twelve German carpenters, painters and craftsmen, and in this way keep the company intact besides doing more work than a hundred soldiers could. We get eight hours each day out of these fellows, and pay them from 20 to 22 marks per day. About 40c to 48c inasmuch as the American dollar now buys 47 marks! Think of that for labor. Do you blame us; for a lot of people I know are not on the trip with us. You would love this detail and would enjoy the work immensely.

The best way I can describe things is to just admit that we are sitting right on top of the world. It's really quite a dizzy height too, in contrast with the trying conditions you all are facing back in the states. Our life is filled with interest, peace and enthusiasm, with worlds of joy and pleasure, and a large amount of satisfaction in accomplishing the tasks assigned to us. I've already told you of the organization of the brigade in previous letters I believe. Making soldiers of our men? I know this spotlight on the labor item, in view of your present experience will seem preposterous. But over here we find everything ridiculously cheap, a good meal for 8 marks 16c, and a drinking man can get a quart of champagne for 65c. In fact the purchasing value of American money is our main handicap—for a buck private has money all the time through, so that we have pretty strict rules again hard liquor—pretty strict rules against hard liquor, other than wine or beer.

The Engineer organization of the brigade consists of the brigade engineer, the Engineer Dump, and company of 290 men. The dump carries the provisional brigade train, one-half

the divisional equipment; and for its transportation has a motor park section of some fourteen trucks, light trucks, cars and motor cycles. The animal train section consists of about six animals, and usual company equipment, tool wagons, extra escort wagons, etc. These two transportation sections, therefore, require an operating overhead of about 90 men, which together with the construction section, gives the company about 185 men for company duty. We are real proud of our organization and I can assure you it's a hand-picked organization. If we find a bad egg in the company, it's a sure thing the next week will find him transferred to the casual companies returning home. The men realize now that they must be real men—or leave—and are taking corresponding interest in playing the game.

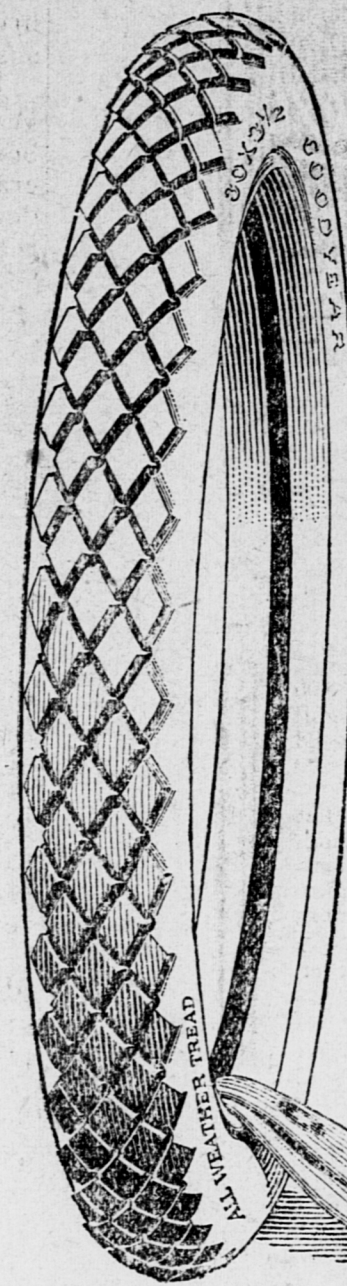

We have to work pretty hard, but with a staff of one Lieut. Colonel, one Captain, four 1st Lieut., and one 2nd

with 3 M. E's., and an excellent staff of 11d N. C. O. 8., we get our work over with, and manage to get in nice week-end trips to some of the garden spots that are all around us in this beautiful Rheinland. Cologne and Weisbaden are on each side of us, a two-hour run by train, and Coblenz itself is a prosperous town of some 100,000. So we do get in our play, and feel that were making good use of our time. Everybody is in love with conditions as they are, and for the first time in two years, we can live luxuriously on our pay, and save a bit besides.

With very best regards to both Mrs. Crecelius and your self, I am As ever yours, JOHN WOOD

Sylvester Tingle, 19, missed his footing on the L. & N. bridge at Ravenna and fell 30 feet, fracturing his skull. He was rushed to a Lexington hospital.

Goodyear Leadership— and Tires for Small Cars

Enormous resources and scrupulous care have produced in Goodyear Tires for small cars a high relative value not exceeded even in the famous Goodyear Cords on the world's highest-priced automobiles.

In addition to its larger sizes, Goodyear manufactures an average of 20,000 small car tires a day in the world's largest tire factory devoted solely to the 30x3, 30x3 1/2, and 31x4-inch sizes.

Last year more small cars using these sizes were factory-equipped with Goodyear Tires than with any other kind.

Their extreme worth is available for your Ford, Chevrolet, Dort, Maxwell, or other small car, at the nearest Goodyear Service Station. Go there for these tires and Goodyear Heavy Tourist Tubes.

30x3 1/2 Goodyear Double-Cure \$20.00

Fabric, All-Weather Tread

30x3 1/2 Goodyear Single-Cure \$17.65

Fabric, Anti-Skid Tread

Goodyear Heavy Tourist Tubes are built to protect casings. Why endanger a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3 1/2 size in waterproof bag \$3.90

GOODYEAR

It would be thought a hard government that should tax its people one-fifth part of their time, to be employed in its service. But idleness taxes many of us much more, if we reckon all that is spent in absolute sloth, or in doing nothing; with that which is spent in idle employments or amusements that amount to nothing. Sloth, like rust, consumes faster than labor wears; while the used key is always bright, as Poor Richard says—Franklin.

Putting an Egg in a Bottle. An egg may be put into a bottle which has a mouth much smaller than the egg, says Popular Mechanics Magazine. First soak the egg in vinegar until the shell becomes soft and pliable. It will then be easy to force the egg into the bottle. Pour cold water into the bottle and allow it to remain until the shell becomes hard again. The bottle can then be shown to friends, who are certain to be greatly mystified by the sight of an egg in such a place.

Lafayette, Whitley and Knox county are combining in building a \$150,000 hospital at Corbin, constructing work to be commenced in the spring.

The Cleveland Makes Good Because it IS so Good

"The Cleveland is in a class by itself." That's the answer from owners of the new Cleveland Six all over America.

The Cleveland has made good with the public in such a big way, because it is so good.

Men of engineering and manufacturing skill, and of high ideals, devoted three years to the development and perfection of the Cleveland Six before they offered it to the public. Experimentation was worked out in the Cleveland Company's laboratories and shops and in constant tests on the road; not in the hands of owners. So the Cleveland has made good.

The thousands of Cleveland Sixes that have gone out to owners since last July are performing as few cars, indeed, can perform. The power and life of its motor, its remarkable comfort in riding, the ease of handling, the beauty and graceful style of its body designs, the excellence of its finish and upholstery, truly place the Cleveland Six in a class by itself.

We cannot tell you how good the Cleveland Six is. You must drive it and ride in it to know.

Once there was a wealthy Southern gentlewoman who lived in a historic home of Lexington. At 89 years of age she dressed in white, curled her beautiful white hair, and needed not to rouge (as some girls of 18 must today) her velvety cheeks. People loved to look at her as she alighted from her carriage, or swept up the aisle of Christ Church.

No girl of 20 was more beautiful—and did any sneering her age census taker dare or publish her age or weakness? Not one. Her wealth and position protected her. Are not the obscure ones entitled to just as much consideration?

Again these much abused census takers published the fact that they had encountered "some old maids in curl papers" and found much joy in giving this highly edifying piece of news to the world at large. To the women who are to labor as men!

Let it be said, in passing, for the benefit of those thoughtless ones that the writer of this article is a woman, who, has at all times given full information as to age, nationality, birth, etc., to Red Cross canvassers, census takers, etc., whenever asked to do so. She has not nor perhaps ever will reach a point of sensitiveness in regard to the question.

She also believes that women have rights—chief of which should be to "quit themselves like men!"

There appeared in a Lexington daily a "story" of the census progression. The sanctity of the home of two modest, defenceless old ladies was invaded. Throughout sixty and eighty long years they had kept one beautiful, womanly instinct alive in their hearts—the normal right to beautify their persons. They had curled their hair, and for this sin they were sneered at and derided in the public press, copy being furnished by female census takers. The exact ages of these same gentle little old ladies were given—born at a time when women were not forced to talk of such things—when traditions of a certain culture and refinement still existed. Imagine the mortification and indignation of these defenceless ones when that item appeared in the daily papers, so minutely stated that their neighbors could make no mistake as to identification! Imagine, if one can, the uselessness of the provincialism, the unkindness of it all! If women would learn just one thing to take with them into new fields of action—just to be kind—their paths would be free of obstacles.

NOTICE

Our new plant on Second St. is about completed. In order to move and install the machinery, we will close February 2nd for one week. Our plant will be one of the best equipped plants in the state, and we will be prepared to give our customers high class service.

DIRECT DEALING PAYS BEST

When cream is ready to sell, the hard work has been done and you should not permit any outsiders to make an extra profit off your efforts. You can ship your cream DIRECT to the Tri-State and save from 3 to 5 cents per lb. of butter-fat. It is just as easy to deliver the cream to a railroad station as to a buying station. The Tri-State pays the freight and guarantees your cream against loss in transit. Mrs. Thos. Daulton, Peebles, O. writes us on Nov. 25, 1919—"I have shipped cream to the Tri-State Butter Co. for three years and have been satisfied. I have sold cream to cream stations in order to return the empty can with me, as I live 9 miles from the railroad and always lost from \$1.50 to \$2.00 on every can of cream sold to agents."

We Pay the Freight and 70 cts per Pound for Butter Fat

Jan. 26 to 31 inclusive

THE TRI-STATE BUTTER COMPANY

Cash Capital \$250,000
CINCINNATI, OHIO

If you need cans, write for Free Trial Cans. 35,000 cream producers find it most profitable to ship direct.

CENSUS FIGURES COME FROM WASHINGTON

Enumeration About Completed in Madison—Prominent farmer Sends Clipping on Subject

Madison county census takers have completed their work, according to District Supervisor R. B. Terrill. Nothing will be known of the population of Richmond, Berea, or any other towns or of the county as a whole until figures are given out by the Census Bureau at Washington.

It has been announced from Washington that while it had been hoped to complete the enumeration work in the fourteenth decennial census in 15 days, Director Sam L. Rogers, of the Census Bureau, said the time would be extended and that the count of the population of the country would be completed regardless of the time necessary. His announcement was made as the result for extension of time received from Chambers of Commerce and other organizations in a number of cities which apparently were under the impression that 15 days was the limit fixed by law for the enumeration and that any work not completed in that time would remain unfinished.

Director Rogers said the enumeration had not yet been finished in any of the larger cities, but that some returns had been received from a number of them.

In connection with the taking of the census and the questions asked by the enumerators, a prominent citizen of the county and good friend of the Daily Register sends in a clipping of a letter to the Courier-Journal regarding the census in Fayette county, and he says in connection with it:

"I have never asked you to publish anything but I'm sending you a clipping which I wish you would publish in the Daily Register as I think it fits this county."

The clipping reads as follows: "Quit Ye Like Men"

Over in Lexington we have been taking the census. Each day the local papers gave a story reciting the unexpected difficulties which were encountered. On Sunday they "let out" the secret. There was a reason. The general public suspicion of this all along, for there was really no cause for difficulty in obtaining proper and legitimate information which has been done many times before, without any trouble. Now the papers which have vigorously censured the cause of the census takers, have unwittingly given explanatory evidence.

Women have been employed to go from house to house and have been "crucially treated." Now it is right and proper that women should be given work in any field under heaven where men have gone before. By the chivalry of man we are soon to have full rights of citizenship. It would be well perhaps if some of us would ponder the sentence, "Quit ye like men."

The census takers of Lexington indulged in inexcusable personalities. They made "copy" not only for private gossip, but for newspaper snobs, writers of the most sacred and private gossip, but for newspaper snobs, writers of the most sacred and private affairs of households into which they—armed with Government authority—forced themselves. Nothing was too private or too sacred to be flaunted before the public.

Let it be said, in passing, for the benefit of those thoughtless ones that the writer of this article is a woman, who, has at all times given full information as to age, nationality, birth, etc., to Red Cross canvassers, census takers, etc., whenever asked to do so. She has not nor perhaps ever will reach a point of sensitiveness in regard to the question.

She also believes that women have rights—chief of which should be to "quit themselves like men!"

There appeared in a Lexington daily a "story" of the census progression. The sanctity of the home of two modest, defenceless old ladies was invaded. Throughout sixty and eighty long years they had kept one beautiful, womanly instinct alive in their hearts—the normal right to beautify their persons. They had curled their hair, and for this sin they were sneered at and derided in the public press, copy being furnished by female census takers. The exact ages of these same gentle little old ladies were given—born at a time when women were not forced to talk of such things—when traditions of a certain culture and refinement still existed. Imagine the mortification and indignation of these defenceless ones when that item appeared in the daily papers, so minutely stated that their neighbors could make no mistake as to identification!

For Musical Beginners.
Enthusiasm of modern flats might well take a hint from a unique feature in Bach's notes in Brook street, now undergoing transformation to accommodate the new Gramophone club. This was a suite of "sound-proof" rooms called the "Harmonium suite" after the composer, who lived and died in Brook street, for the use of musically inclined visitors. This admirable arrangement enabled amateurs of such distressing instruments in the hands of the novices as the piano or the harp to practice without disturbing their fellow-guests.—London Times.

Seeing Him Home.
I was coming home from a dance, and I didn't want my escort whom I had just met that evening, to know where I resided. We were walking down the street and I saw a pretty house. I stopped in front of this house and told my escort that I lived there and was obliged for his attention and kindness in taking me home. A look of bewilderment broke out on his face as he said, "Doby smoke, how do you live there when I live there?"—Exchange.

BETTER THAN CALOMEL

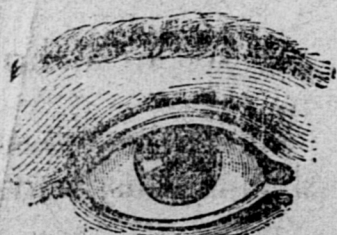

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 10c and 25c.

DELCO-LIGHT

IN considering the installation of a farm electric plant, more must be taken into account than mere price. There are other things of greater importance.

You want to be sure you receive long years of dependable service at low operating and upkeep cost, and be sure the plant you install will do the things which are claimed.

Delco-Light is not an experiment. It has gone through the refining influence of years of actual farm usage. Today there are more than 85,000 plants in daily use. Nearly everywhere you will find Delco-Light plants providing complete and dependable electric service. There is a satisfied Delco-Light user near you.

Think what this means to you. It means that you need not depend entirely upon your own judgment when buying an electric light and power plant. You can talk to an actual user and learn from him whether Delco-Light will do for you the things claimed.

Perhaps your neighbor has Delco-Light? If not, write for name of nearest user and catalog.

Swift & Company's 1919 Earnings

How They Affected You

During the twelve months ended November 1, 1919, (its fiscal year), Swift & Company transacted its large volume of business on the smallest margin of profit in its history.

Sales over \$1,200,000,000.00

Net earnings \$13,870,181.34

Our shipments were in excess of 5,500,000,000 lbs.

This means that our earnings were less than 1 1/2 cents on each dollar of sales, or a quarter of a cent on each pound shipped.

Consumer—

The average consumer eats about 1/2 lb. of meat per day—180 lbs. per year. If he purchased only Swift & Company products he would have contributed only 43 cents (180 lbs. @ 1/4 cent a pound)—a year profit to Swift & Company for its investment and service, less than one cent per week.

Our earnings were so small as to have practically no effect on the family meat bill.

Live Stock Raiser—

Swift & Company handled in 1919 over 16,000,000 head of live stock. You can figure for yourself that our earnings of 1 1/2 cents on each dollar of sales are too small to affect the price you received for your stock.

We paid all it was humanly possible to pay considering what the meat and by-products could be sold for.

Swift & Company, U. S. A.

The Danville Advocate said: a regular run-away meeting of Her good people met in mass enthusiasm for the proposed meeting last Wednesday and had Federal Highway.

The Romance of Banking

It is always interesting to watch a small account grow gradually in volume, registering the progress of its owner.

And if it is inspiring to watch and encourage one individual to steadily mark milestones in his career, the banking business amounts almost to romance when it is remembered that it shares in the progress of hundreds of citizens.

With the increase in our depositors, though, there is no decrease in that personal touch we always maintain.

JOHN SKAIN, MANAGING DIRECTOR

SATURDAY RALLY DAY FOR THE CHILDREN

Bad Weather Does Not Keep Great Crowds Away From Dr. Morrison's Meeting Each Night

The revival meetings at the Methodist church continue with increasing interest. Yesterday was an unusually busy day. A number of city pastors were out doing personal work. Dr. Morrison spoke to a group of men in Court House yesterday morning. He and Mr. Pierer visited the jail and had prayer with the prisoners. He also preached three times at the church. A successful children's meeting was held in addition to the regular services.

Notwithstanding the rain and slush, a great audience was present at the church last night and it was necessary to use many chairs to seat the crowd. There is evidently a wide and deep religious interest in the community. It is the purpose of the pastor, Mr. Chandler, to press the meetings with great vigor until the closing services next Sabbath.

There were quite a number of professions of conversion yesterday, and many expressed their purpose to unite with some church.

From the very first, Evangelist Morrison has laid great stress on the necessity of the "New Birth," a consciousness of pardon and acceptance with God. He has made a strong call to the church to enter into a deeper consecration and higher life of devotion to Christ and Christian service.

The meetings have been characterized by a beautiful spirit of union. The various pastors of the city have been almost constantly present and have been very valuable in their assistance, in prayer and in instructing seekers at the altar.

There are plans on foot to make Saturday a Rally Day for the young people and children with services at 2:30 in the afternoon and at 7:30 in the evening.

If you have not heard Mr. Morrison preach and Mr. Birer sing, do so at once. Meetings close next Sabbath.

WESLEYAN PLAYS NORMAL TONIGHT

Kentucky Wesleyan College of Winchester is sending her basketball team to Richmond tonight to play the team from the Normal school. Wesleyan has the best team she has ever put in the field and while they are favorites in the game tonight, it is known fact that the local lads fight hard for victory. A good game will be played at 8 o'clock in the Normal gymnasium. A new hardwood floor has just recently been installed which makes the Normal gymnasium one of the best basketball floors in the state. An admission charge of 25c will be made.

ENGLAND GETS HALF OF CANADIAN WHEAT

(By Associated Press)
Ottawa, Ont., Jan. 23—Great Britain has received almost one-half of the total Canadian wheat crop, available for export, according to an announcement by the Canada Wheat Board. Records up to date show that 33,360,000 bushels were exported to the United Kingdom up to Dec. 1, and several million bushels were shipped last month. The value of the total export is about \$80,000,000.

The United States received about 4,700,000 bushels of Canadian wheat worth nearly \$10,000,000. France, Greece, Italy, Belgium, Gibraltar and Roumania, also received smaller supplies in order named.

Since the embargo on shipments of wheat to the United States was lifted "A fair proportion of the supply is moving across the border," it was announced. Available statistics indicate that the remaining surplus for export is about 40,000,000 bushels.

A check for \$1,689 just forward represents the gift of school children of Mercer county to the Kentucky Children's Home.

Don't Forget

My auction sale Monday, February 2, (County Court Day) at 1 o'clock p. m., in front of the court house. Something for everybody:

5 or 6 nice Jersey cows: some fresh, others just ready to be fresh.
2-year-old Red Bull cow with 10-month-old calf and will be fresh again in short time.

3 small horses.
Fair coming 3-year-old mules, well broke.
Large pony and outfit.
Lot of wagon and plow gear.
One double-seated rig, beauty.
Several road wagons.
Some household and kitchen furniture.

Harness, bridles and a thousand other things.
Don't miss this sale. Something for everybody.
Be there on time at 1 o'clock.

23 3p Bob Walker, Auctioneer

Get the Habit Eat Brer Rabbit

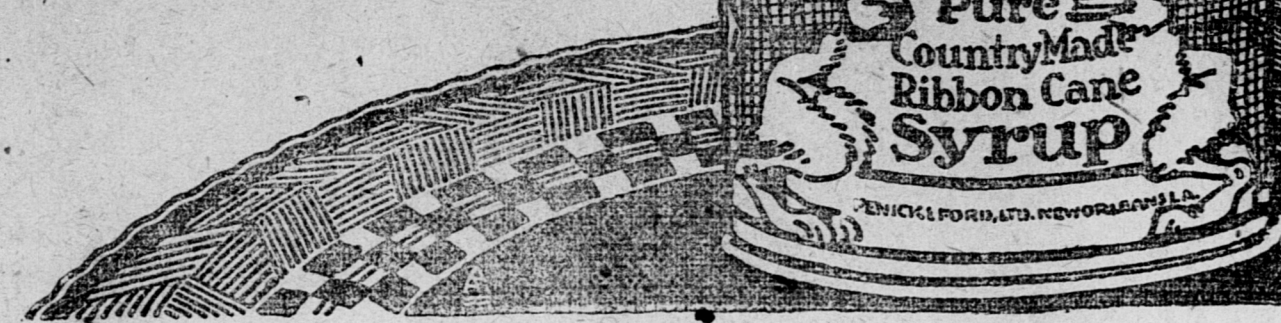

FIGURE out for yourself what eggs beef, ham and bacon are costing.

The thought staggers the woman whose family eats hearty breakfasts.

Present prices make one feel that BRER RABBIT is a friend indeed.

BRER RABBIT syrup is delicious on griddle cakes, fried hominy or just plain bread, and you'll more than notice the saving.

But the best part of the story has been figured out by government experts—

There is more than eight times the heat and energy producing value in BRER RABBIT syrup than there is in an equal purchase of beef—five times that of ham.

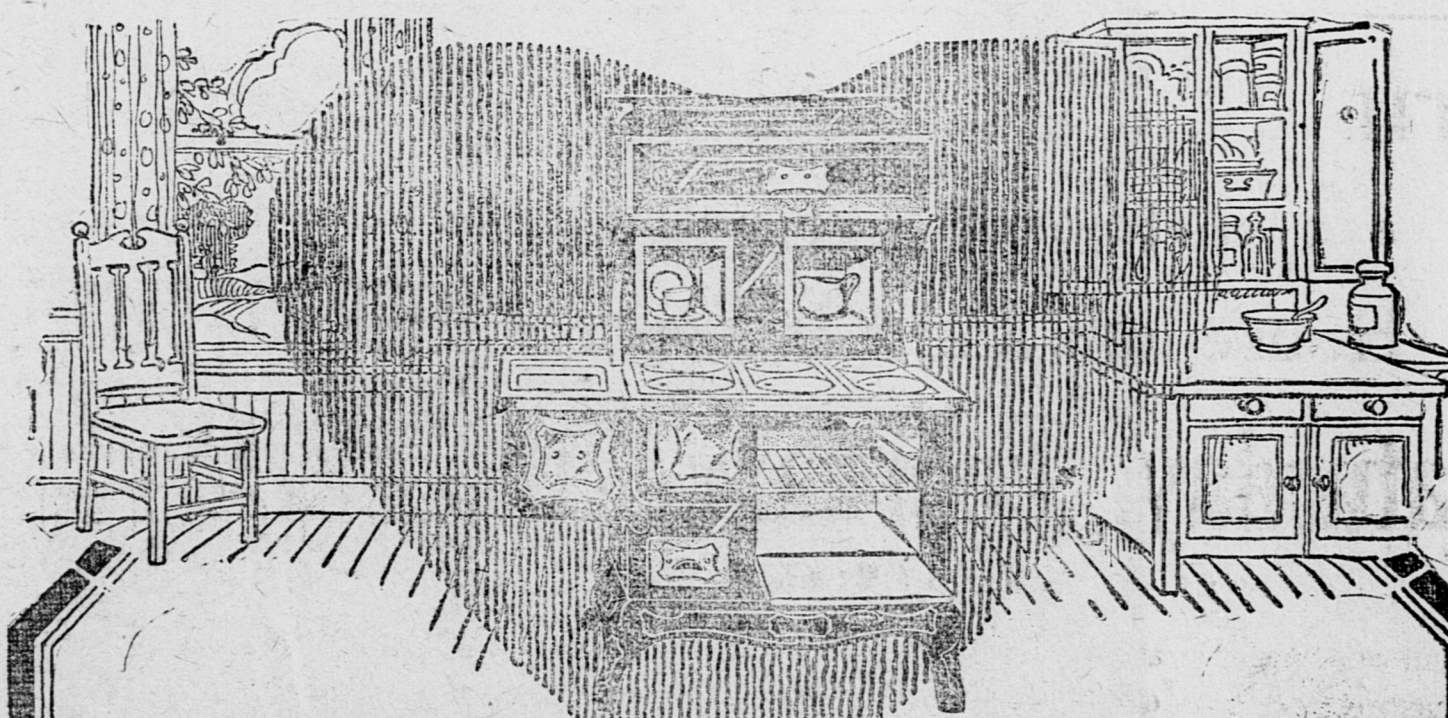

Real country made ribbon-cane syrup from the country—this is BRER RABBIT.

Housewives everywhere know that the name "PENICK & FORD" on a food means Always the Best of its Kind, 22 years of quality.

BAPTISTS TO SPEND \$2,000,000 ON SEMINARY

Louisville, Ky. Jan. 28—Erection of several auxiliary buildings to the Southern Theological Seminary costing approximately \$2,000,000 is the aim of the Board of Trustees, as announced here. "The seminary is on the eve of general expansion," said Dr. E. Y. Mullins, president and several auxiliary buildings to the founder.

William B. Brown, of the Kentucky Motors Corporation, has been on a business trip for the past several days to Louisville and Cleveland. This company reports sales of a Chandler touring car to J. P. Tariton, a Chandler limousine to George H. Collins, and a Chevrolet roadster to Stanley Veach, of Lexington.

The Range is the Heart of the Kitchen

and the kitchen is the heart of the home. The health and happiness of the whole family depend on what they eat. Don't blame the cook if the food is made indigestible by poor cooking. Get her an

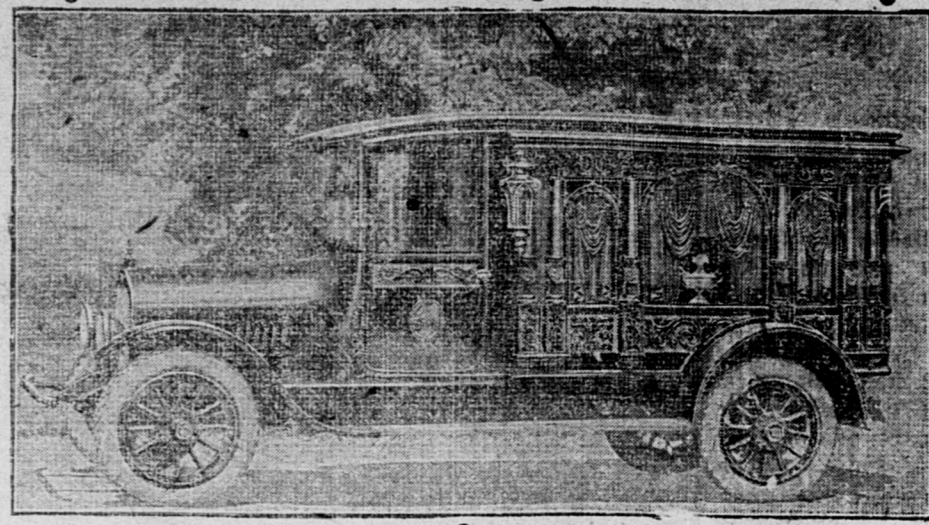

ALLEN'S PRINCESS
COPPER IRON BEARING
RANGE

and give her abilities a chance. It's even baking oven takes the chance out of cooking, and its many features for saving time and labor eliminate kitchen drudgery. Notice the 10-gallon copper reservoir adjoining fire-box, the handy warming cabinets, and the clean, roomy warming closet with pipe behind it; also the asbestos lined oven with triple bottom and walls which retain heat and insure even baking.

The Princess is easily the leading range on the market—tested by 25 years of constant service.

W. F. HIGGINS

UNDERTAKING DEPT.

Our Undertaking Department, installed under the personal supervision of Mr. W. E. Richards, at the time we took over from Mr. Neale Bennett & Company, is as complete a service as can be found in Kentucky. We are highly appreciative of the consideration we have had in this department from all parts of the county. It is our intention to furnish a service that will satisfy in every way, with thoughtfulness and care, a quiet unostentation, yet with assurance that no detail will be omitted that may be necessary. And yet our service can be obtained upon the most reasonable terms, and we invite your patronage at any time that we can serve you. Our new funeral car is the latest in design and equipment and of a quiet elegance that is approached by few other cars of the kind.

Muncy Brothers

LEGION IS WORKING FOR EX-SERVICE MEN

(By Associated Press)
Indianapolis, Ind., Jan. 25.—Franklin D'Olier, National Commander of The American Legion today issued the following statement with regard to the service the Legion has undertaken to render ex-service men:
"At each of the seven thousand Local Posts of The American Legion

throughout the country, is a War Officer who has been instructed to take up with various Governmental Bureaus in Washington, or branch offices, any cases with regard to ex-service men that may be brought to their attention calling for Governmental action. Such cases as they deem worthy of the advice of the State War Risk Officer are forwarded to him. Where the case cannot be handled by State Department Officers, it is forwarded to State Headquarters, and may in turn be submitted to National Headquarters for attention.

where the Headquarters service is required. Thousands of these difficult or extraordinary cases involving questions of law and procedure or delayed cases are received at National Headquarters daily.

"Most of these appeals consist of various claims against the Government growing out of a man's service in the Army, Navy or Marine Corps. They relate for the most part to compensation, allotments, Liberty Loan Bonds, vocational training and bonuses.

ample, National Headquarters has been instrumental in collecting for ex-service men \$16,650 in Liberty Loan Bonds and \$16,439.99 in allotments and allowances.

"Charles F. Sheridan, in charge of the Service Division at National Headquarters, and formerly connected with War Risk Insurance Bureau at Washington, is in charge of this branch of the service. His intimate knowledge of the workings of various Governmental Bureaus in Washington enables him to render with the utmost dispatch this service to the ex-service men to appeal their cases to the War Department."

"In a period of two months, for example, National Headquarters has been instrumental in collecting for ex-service men \$16,650 in Liberty Loan Bonds and \$16,439.99 in allotments and allowances.

First Woman Journalist.

Mrs. Anne Royall, born in Maryland, in 1799, was not only the first woman journalist, but the first of her sex to own and edit a newspaper. She was the widow of a Virginia revolutionary war officer, and appeared in Washington in 1824 for the purpose of trying to secure a government pension. Failing in this, she started a small weekly sheet which was first called the "Washington Paul Pry" and later the "Huntress." She had met personally and talked with every president from Washington to Lincoln, and was the terror of politicians.

Irresistible in Business.

"The good-natured man with a well-balanced mind is irresistible in business; he goes around flashing his cheerfulness to right and left unconsciously. He does not need to be easy to be good natured. He can be firm in his convictions, and immovable from his principles, and yet he can assert himself in that quiet, sincere way which wins the respect even of his opponents."—From The Northwestern Buzzer, published by Northwestern Electric Equipment company, St. Paul, Minn.

—LUMBER—

We will contract for 300,000 to 500,000 feet of Beech and Sugar Tree lumber for spring and summer cutting and delivery.

Ford

THE UNIVERSAL CAR

The Ford Model T One Ton Truck with its manganese bronze worm-drive is really a necessity for the farmer because it solves his problem of economic transportation from the farm to the city. And in farm work alone, it will be found a great money saver as well as a big labor saver. Has all the merits of the Ford car multiplied by greater capacity with greater strength. No extra cost in operation. We'd like to talk it over with every farmer. Bring your Ford car to us for necessary repairs and thus get the genuine Ford parts and reliable Ford workmanship.

Richmond Motor Co

Incorporated

We have a complete carload of marble bought for Spring delivery consisting of hand-crafted finished

Monuments, Tablets and Markers

All who wish to have their work finished by Decoration Day should call and see us at once. We have a large assortment of designs of these monuments for display and will delight in showing them to you. Place your order with us and save an agent's commission. We will save you money, if you buy from us and will guarantee satisfaction.

Several fresh calves by their side. Balance heavy springers, will be fresh inside of thirty days. This is one of the best loads of young cows ever shipped from Tennessee.

WALTER M. HARRISON
BENTON, TENNESSEE

Modern Merchandising and Advertising

By FRED P. MANN, Devil's Lake, N. D.
President North Dakota Retail Merchants' Association

(Continued From Saturday's Paper)

"I know it is a fact that a great many men believe as Gospel truth that the great packers, the operators of flour mills and other advertisers, are spending their money for the Saturday Evening Post to keep it from attacking them and exposing them as robbers and thieves. If the mills would take off their traveling men, quit newspaper advertising, take down their billboards, in two years the Crosby Mills would close their doors. I was talking to Mr. John Crosby of Minneapolis on this subject. I made the same statement to him and he replied: 'Well, you are probably making it pretty strong, but there wouldn't be very many mills running if we didn't use every method we know to keep this stuff going right from the mill to the business place. There would be nothing to it.' I believe that the great packers in advertising have created a wonderful demand, and I don't believe that the attacks on the packers are just. Those men have used all their energy and effort not only to market that stuff in the United States, but all over the world. But so many of the people don't understand this great machine of distribution that we have. And that must be followed out.

Advertising Costs Nothing.

Does advertising increase or decrease the cost of merchandising? We are spending between ten and twelve thousand. I figure it doesn't cost us anything. If I stopped that my business would begin to sag immediately. We will sell more merchandise this year. Our overhead is all set, our rent is so much, our light so much, our delivery service there. We would lose, yes, three hundred thousand dollars more with that overhead. I will have to add a little extra help to handle it, and I will make by this intensive advertising enough more profit, so that my advertising will not cost me anything. I will clean up on advertising. This is not a ridiculous statement. If I did not keep up advertising my business would sag. I could not do it. My salary is there, it doesn't make any difference. The manager's salary is there. If the sales come up better, he may get more commission at the end of the year. But all in all, a trim profit accumulates if you get to a certain stage. If you can put on that extra effort. It is a well-known fact that the cheapest method of selling merchandise today is by advertising. There is no other method of salesmanship I know of, that will compete with it. I believe absolutely that if nine-tenths of these non-advertisers did advertise that it would cost them not one cent. In fact I venture to say, they would make profit on it.

When you go into it, get in right. I went into a small town and into a newspaper office and noticed a chap running a clearance sale. In July, I went over to the store to see how the sale was going. There were no goods displayed in the window. I stepped in and couldn't see anything of the sale. Nothing on the counters. I said, 'Have you got a sale on?' I saw an ad in the paper. 'Oh, yes, all those goods on the shelf are on sale.' I immediately went out and got a dispatch to a newspaper in St. Paul to show them just what my point was. Then I got the jobbers and showed them how they must insist upon the merchant connecting the ad he puts in the paper with his business.

Must Get Together.

I was down in Muscatine, when an ad man told me he got the merchant to advertise. That morning of the sale, the clerks didn't even know what was on sale until they looked in the newspaper. If we could only get together once in a great campaign and agree to advertise! Don't do it haphazardly. Do it thoroughly.

When we come to the store in the morning the managers come in to see me. Planning all around, we talk it over and plan it. It is done constructively. It isn't just putting in something and throw in a few cuts. The same way in groceries. If you are going to advertise and sell a certain line of pickled goods, or canned goods, put in the price and get them out. Have a little table or stand and put them out. Tag them up. In our sale last fall I asked the National Biscuit company to give us a demonstration. A man came and brought along about \$1,200 worth of sample crackers. Every lady that came in was asked to sample the crackers. We said they were on sale, so many pounds for so much on that day. On one day we sold over \$800 worth of crackers. It will surprise you how people will come in, help themselves and take away orders with them.

Discussion Is Held.

At the conclusion of the address, it was announced that Mr. Mann was prepared to answer any questions that might be propounded to him by his hearers.

"What have you to suggest about Community advertising, something that will help the community?" he was asked.

"To bring business to the town, I believe if you could have co-operative advertising it would pay. Get out a big edition to your paper, everybody

put in a special, if you could make it," he replied. "One thing I notice in the paper: I don't see any of the smaller merchants. I think that a great mistake. I believe that the small merchants can get just as much value out of it as the large ones. I suggest that you all get in. Nothing builds a town faster. The advertising reflects the spirit of the town. Suppose all you men would spend, grocery, say 1 per cent, department stores 3, clothing 3, and the rest along 1 or 2 per cent. You have some good ad men in this town. You must have.

Gives an Illustration.

"In a Minnesota town there was a real live commercial secretary who induced all of the merchants to unite in a co-operative advertising campaign. The first merchant approached was a grocer who demurred at the cost of the ad. The article to be advertised was flour, on which a discount of 25 cents was offered. The secretary asked:

"How many sacks do you sell on Saturday?"

"We will figure 20 sacks."

"How much did you make?"

"About 35 cents per sack at that time."

"We will give you the first profit on the first 20 sacks. You take a \$10 space. I'll write the ad for you. Nice space, lots of white on it. If you don't sell enough flour to pay for this ad after you get your overhead, I'll pay for it." That groceryman sold 175 sacks of flour.

"He went to a Greek there and said, 'I want you to take space in this.' The boy was right in the game. 'You put in anything.' 'That don't go,' I said. 'Every merchant's got to put something in.' He looked in the case. Had a little peanut confection that had a coating of chocolate over it, sold for 40 cents a pound. 'Can you sell this for 35 cents?' We will put this in a \$3 space. You are going to sell 1/4 pound for 5 cents."

"How many sacks do you think he sold? Just a little over 1,200. He was just getting a new store arranged. I told him that ought to teach him a lesson. 'When you get in the new place for goodness' sake every week take a \$3 space and put something in there.' He had more people in the store in that day than he ever expected to see in his life. They followed it up.

"Advise your own business in a legitimate way and it brings business to the whole town. Everybody is going to do business and you will feel good about it. Do honest advertising. Don't try to deceive—you will not get very far on that. Always be fair and square. I actually believe if you would all get together on that basis it would bring people here. This advertising two or three times a year don't amount to anything. Keep it up all the time, year in and year out. Groceries, by all means advertise. The people like to see a little change, know what is going on, and you wouldn't have to cut the price at all."

AUSTRALIAN SHEEP RAISERS TO EMIGRATE TO CANADA

(By Associated Press)

Grande Prairie, Alta., Jan. 28.—Australian sheep raisers are planning to emigrate to the Grande Prairie district of Alberta, this spring, according to information received from Queensland by the local board of trade. It is claimed that the action of the labor party in Australia, in placing direct taxes on lands to absorb war debts, has caused a number of farmers and sheep raisers to decide to move to other parts of the British empire.

The Grande Prairie district was a complete wilderness a few years ago and has practically no railroad service. The Canadian government is building a line to this region from Edmonton. It is said that the wild country in the summer time is much like parts of Australia.

AND THEY SAY IT'S "DRY"

(By Associated Press)

Pottsmouth, Tex., Jan. 28.—Rattle snakes in large numbers frequently have been seen swimming in Gulf of Mexico near the Haff Moon light house, seven miles from mainland and four miles from the peninsula to the south, according to the two men who keep the light. Recently three rattlers were killed on the light house platform by the keepers. Tenants on property which formerly constituted the Rancho Grande here report a pestilence of rattlesnakes, which they say are a menace to livestock. However, it is reported by a number of farmers that fat cattle, bitten by rattlers, do not die, the poison from the bite of one snake being insufficient to kill them.

SOW SWEET CLOVER

Better than red clover, and \$14 tr \$16 per bu. cheaper. Direct from grower. Unhulled, hulled, and special scarified seed; prompt germination. Prices and circulars free. Also prices on honey.

MRS. ELMORE WAS BORN IN RICHMOND IN 1833

Many relatives and friends in Richmond and the county will regret the death of Mrs. Elmore, who was an aunt of Mrs. Hattie Buchanan, Miss Belle March and Mrs. Jefferson Stone of Nicholasville. Of recent years she made her home in Illinois. The following clipping from an Illinois paper says:

Mrs. Edith March Elmore
Died at the home of her daughter, Mrs. James Gailbraith, on Dec. 12, 1919 aged 86 years, 7 months and 27 days.

The deceased was born at Richmond, Ky., on April 15, 1833 and on Sept. 2, 1866 she was united in marriage to Mr. Robert Elmore and they immediately moved to Illinois, first locating at Bloomington, where they resided for a short time. They then moved to a farm near Forrest and this section and city was her continuous home since. Mr. Elmore died Aug. 3, 1906, and the widow remained upon the farm until six years ago when she went to spend the sunset hours of life at the home of her daughter, Mrs. Gailbraith. Mrs. Elmore was a most loving wife and mother, a most excellent neighbor and a friend who was greatly cherished.

She leaves to mourn her death two sons, James, of Chatsworth, and Wm., who resides at Forrest, and two daughters, Mrs. James Gailbraith, of Forrest, and Mrs. Susan Wilson, of Toledo, Iowa.

Funeral services were held from the home of her daughter on Sunday afternoon, Dec. 14, Rev. H. F. Scrivner officiating, and the funeral was largely attended. The remains were laid to rest in Forrest cemetery.

BUFFALO STEAK AT \$1 A LB.

(By Associated Press)
Dickinson, N. D., Jan. 28.—Buffalo meat has been placed on sale here at \$1 a pound. The meat market where it was offered is on the exact site where 25 years ago the meat sold for three and four cents a pound.
